

GLASS SAFETY GLASSES

MODEL 70F

FRAME INFORMATION

The Real Glass safety glasses 70F boast a durable and lightweight round frame crafted from high-quality plastic. These glass safety glasses are equipped with permanent side shields and incorporate real glass lenses, renowned for their exceptional scratch resistance and prolonged lifespan compared to plastic alternatives. Additionally, these safety glasses feature a smoke gray frame and are offered in four lens variations: clear, gray, green IR 3, and photogray Transition. Furthermore, the glass safety glasses 70F meet the stringent ANSI Z87.1 safety standards.
