ADJUSTABLE HEIGHT WRAPAROUND MOBILE LEADED BARRIER

The Adjustable Height Wraparound Mobile Leaded Barrier is a versatile and protective solution, featuring an adaptable height design and partial wraparound coverage to ensure maximum safety. No need for table shields or lower body X-ray Garments. With its easy adjustment mechanism and smooth maneuverability, this mobile curtain provides a flexible barrier for various applications. The barrier extends all the way to the floor, enhancing its protective capabilities. Plus, it is constructed with a durable lightweight aluminum frame and equipped with five locking casters, combining sturdiness with mobility.

In addition, the unique fabric and heat seal construction used in this barrier is our new Radgenic, a revolutionary fabric material specifically designed for Medical Imaging working environments. Radgenic boasts a smooth surface and 100% non-porous fabric, ensuring 0.50 PbEq and compliance with safety standards for secure X-ray procedures. With ultra-durability, Radgenic ensures long-lasting benefits. The importance of Radgenic lies in its unique material complying with CDC guidelines, its fluid-proof and non-porous nature, reduced contamination risk, stitch-free design, and proper cleaning process.

SPECIFICATION

COLOR: Black

SIZE: 24"W x 26"D x 45"H w/ top bar down and wheels on
24"W x 26"D x 59"H w/ top bar up and wheels on.
