PRODUCT INFORMATION

POLYTRON LEAD FREE DENTAL LEAD APRON

The Polytron Lead Free Dental Lead Apron is a highly effective and comfortable apron designed to significantly reduce radiation exposure. Covering the front of the body from the neck to just below the waist, this apron provides excellent protection for the anterior torso, including the shoulders and thyroid. It features an adjustable and secure Velcro closure around the neck for easy use and a reliable fit. Additionally, the design includes hanging loops by the collar, making it convenient to store on an apron hanger or peg rack.

Suitable for both men and women, this lead apron dental is crafted from high-quality Lead Free with a 0.25mm Pb lead equivalency. The outer material is made of Polytron, a smooth, flexible, and comfortable fabric that is stain-resistant, PFC chemical-free, and bleach-cleanable. Available in thirteen colors with six binding options, this lead apron for dental x rays meets the rigorous ASTM F3094-14 testing standards.
