PRODUCT INFORMATION

RIPSTOP LIGHTWEIGHT LEAD DENTAL LEAD APRON

The Ripstop Lightweight Lead Dental Lead Apron is a highly effective and comfortable option for reducing radiation exposure. This apron covers the front of the body, from the neck to just below the waist, providing excellent protection for the anterior torso, including the shoulders and thyroid. It features an easy-to-use Velcro closure around the neck for adjustable and secure fitting. Additionally, the apron is designed with hanging loops by the collar, making it easy to store on an apron hanger or peg racks.

Suitable for both men and women, this lead apron dental is made from high-quality lightweight lead material with a 0.25mm Pb lead equivalency. The outer fabric is crafted from Ripstop, a woven material reinforced to resist tearing and ripping. It is available in nine different colors and six binding options. This lead apron for dental x rays has also passed the universally recognized ASTM F3094-14 testing procedures.
