PRODUCT INFORMATION

PREGNANCY MATERNITY PANEL LEAD APRON ECONOMY LEAD FREE

The Lead Free Pregnancy Maternity Panel Economy Lead Apron is a highly effective, adjustable half lead apron designed to significantly reduce radiation exposure. This specialized pregnancy lead apron is a separate maternity panel that covers the belly, ensuring protection for critical areas. The Velcro band allows for easy adjustment around the waist, providing comfort and ample room for expansion during pregnancy.

Designed as a one size fits all, the Pregnancy Maternity Panel Lead Apron offers a non-lead core material with 0.50mm Pb lead equivalency protection. Note that in most states, you are required to have 1.00mm Pb lead equivalency to cover the critical area, which is accomplished by adding this maternity panel under the standard apron.

In addition, this lightweight, non-hazardous, and 100% recyclable apron is easy to dispose of. The core material meets ASTM F3094-14 testing standards, ensuring reliability and safety. Plus, it is available in four outer materials: Nylon, Ripstop, Polytron, or PVC EasyClean. In addition, it is available in a variety of colors, all with black binding.

SPECIFICATION

APRON STYLE: Pregnancy Maternity Panel

FEATURES: Velcro Band

SIZE: One size fits all

CORE MATERIAL: Lead Free

OUTER MATERIAL: Nylon, Ripstop, Polytron,
PVC EasyClean

LEAD EQUIVALENCY: 0.50mm Pb

RIPSTOP

Ripstop is a woven fabric that utilizes a reinforcing technique to enhance its resistance to tearing and ripping.

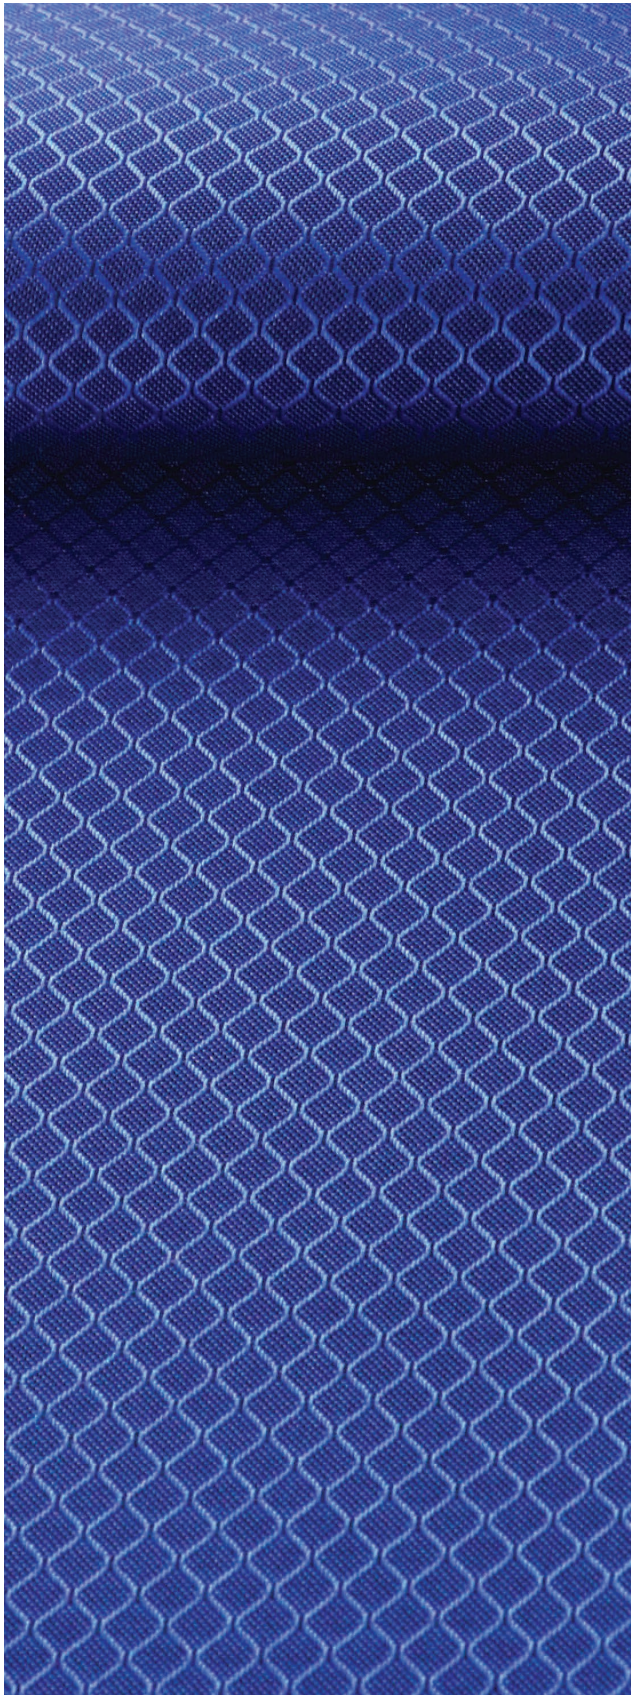

Commonly made from nylon, this lightweight material features interwoven reinforcement threads arranged in a crosshatch pattern, giving it a distinctive diamond-like appearance.

POLYTRON

Polytron is a smooth, soft-touch fabric made in the U.S. Its flexible and comfortable qualities come from the polypropylene it's made of.

This lightweight material is inherently stain-resistant, free of PFC chemicals, and can be cleaned with bleach.
