PRODUCT INFORMATION

NYLON LIGHTWEIGHT LEAD DENTAL LEAD APRON

The Nylon Lightweight Lead Dental Lead Apron is an excellent choice for comfortable and effective radiation protection. Designed to cover the front of the body from the neck to just below the waist, this nylon lead apron provides superior anterior torso protection, including the shoulders and thyroid. It features a quick and easy Velcro closure around the neck, ensuring adjustability and secure fit. Additionally, the lead free apron includes hanging loops by the collar, making it easy to store on an apron hanger or peg rack.

Suitable for both men and women, this lead apron dental is crafted from high-quality Lightweight Lead with a 0.25mm Pb lead equivalency. The outer material is made of durable Nylon, known for its lightweight, high tenacity, and excellent abrasion resistance. Available in over forty colors and patterns, as well as six binding colors, this lead apron for dental x rays meets the ASTM F3094-14 testing standards.
