PRODUCTS INC.

Phillips Safety is the industry leader in occupational safety eyewear. In business for over 100 years, you are being served with the dedication and craftsmanship of a family owned company.

Phillips Safety has been producing occupational safety glasses since 1905 and continues to develop and produce the highest quality glasses and lenses today. A leading manufacturer of specialty safety eyewear in the United States, Phillips Safety adheres to strict ANSI Z87-2+ and EN 207 CE standard certifications, holding itself to a highest standard and prides itself on producing glasses with the finest quality materials available.

All safety glasses produced and sold by Phillips Safety meet strict industry standards for military, medical, research laboratories, and a variety of other industries.

With Phillips Safety's dedicated team, you can rest assured knowing that all your prescription safety needs are met.

**CATEGORY INFORMATION**  
**GONAD SHIELDS**

Phillips Safety's Gonad Shields provide essential protection for sensitive areas during diagnostic imaging procedures, ensuring that the most delicate parts of the body are safeguarded from harmful radiation exposure. These shields are crafted from high-quality lead or lead-equivalent materials, offering effective protection while maintaining comfort and flexibility for the patient. Designed with ergonomics in mind, they are lightweight and easy to position, providing a secure fit that prioritizes patient comfort throughout the procedure.

Our Gonad Shields not only offer excellent protection but also meet and exceed industry standards for radiation safety, giving healthcare providers the confidence that they are offering the best possible care. Furthermore, these shields are vital in various medical imaging procedures, including X-rays, CT scans, and fluoroscopy, where protecting reproductive organs from unnecessary radiation exposure is crucial for long-term health.
